

CLOVER RIDGE PLACE

April 2010

WUHHHEEEEEEEE!!!! Spring has finally sprung! There are bulbs blooming right outside my window and robins are flying out and about. Spring is my favorite time of year! I love watching grass and trees "green up" and watching new life grow.

As I am sure some of you have noticed, parts of our grass outside are not exactly "greening up" just yet. There was a problem with our lawn care at the very end of the year last year. We have a company who fertilizes and sprays for weeds and crabgrass four times per year. When they sprayed for weeds in the late fall last year, there was a problem with the chemicals—they had not been mixed together correctly. The result was very brown, dead looking grass—which you still see in most parts of our lawn.

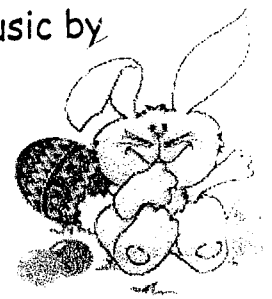

*I have been working with the owner of this company, who immediately took responsibility for the error. He was here with several of his employees and they have re-seeded and fertilized the entire lawn. Within a few weeks we should have lush-looking, green grass for everyone to enjoy! Come enjoy drinks on our patio with us and we can watch the grass grow green together!
Happy Spring!!*

Sydney
