## Introducing The "Administrative Professional of the Year"

*I am writing this letter to nominate Donita Dohrn for Administrative Professional of the Year. Looking in the dictionary, administrative professional is defined as "the executive secretary, including the following duties, typing letters, bookkeeping, making arrangements and any administrative details." This does not even touch what Donita does for me each and every day. Plain and simply put....she is my right arm. She is the smiling face that greets each and every person who comes through the front door. She is the friendly, inviting voice everyone hears first on the phone. Her attributes are many, her weaknesses few. She types at the speed of lightning, is able to decipher any handwriting, and can redirect even the most persistent sales person with a flair and style all her own. She is efficient, artistic, creative, caring, loving, compassionate and at the same time, a real force to be reckoned with. Anytime I misplace something, need something, want to do something, or just plain do not know the answer to something....I ask Donita. If she does not know- which is rare- she finds out within a short period of time. Donita gives from her heart each and every day to our residents, staff, loved ones, family and friends. It is with much respect and admiration, that I ask Donita Dohrn be considered for Administrative Professional of the Year.*

*FUI....Donita was one of four women in Maquoketa chosen as "Administrative Professional of the Year"*

*Stop in and say Hi someday!!!*
